HURRICANE™ MINI 360° HAND CHAIN HOIST

CAPACITIES

1/4 & 1/2 TON

+

LIFT

UP TO 20 FEET

Closely comparable to the Harrington/Kito CX Mini (marketed as the “world’s smallest hand chain hoist”) in size, the CM Hurricane 360 Mini bests the competition in versatility for both standard and complex low capacity lifts.

VERSATILITY AS A KEY DIFFERENTIATOR

The CM Hurricane Mini 360 is the only mini hoist on the market with a 360-degree rotating hand chain cover, providing flexibility and versatility for the most narrow and challenging applications.

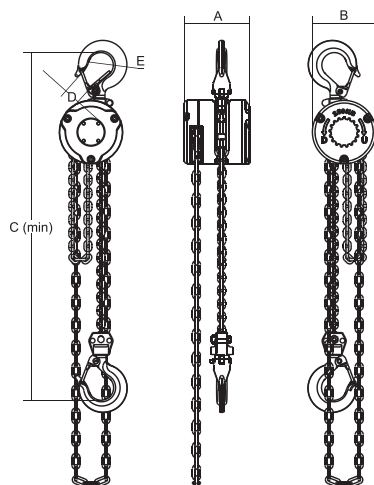

The CM unit can be operated outside the danger zone from virtually any angle, covering a greater range of applications when compared to the Harrington/Kito CX Mini.

The Harrington/Kito CX mini can only be operated from directly below the unit.

WIDE RANGE OF APPLICATIONS

The CM Hurricane 360 Mini is ideal for use at home and in factories, for field construction, agriculture, warehouse, and small equipment installation. Anti-corrosive properties ensure durability in chemical and marine environments.
